

NCDHA Update 2015

What's Going on in NC?

Local Anesthesia

The North Carolina Dental Society is in the process of drafting a Bill to allow Dental Hygienists to provide local anesthesia. This Bill has to be reviewed to ensure that the language will not conflict with any current laws.

Once the Bill is submitted, we will then have a Bill reference number that can be used when contacting legislators and other individuals throughout the state for support of this issue. NCDHA will provide this bill number via e-mail once this information is made available.

We encourage you to stay connected with NCDHA regarding this and other topics as well as monitor our website for up to date information.

Thank you for supporting our profession and helping to improve access to quality care for residents of North Carolina.
