

ANGIE STONE

BIO: While Angie has educated and entertained dental professionals with her fast paced fun courses in 44 states and 6 countries, her career did not begin as a speaker. She jokes with her audiences that she should have known she was destined to be a public speaker when the only “A” she received during her first semester of college was in Public Speaking! Her career in the dental profession began serving our great country as a dental technician in the United States Navy. Once she completed her enlistment, she obtained her associates degree in dental hygiene from Madison College, Madison, WI and later earned her Bachelor of Science in Psychology from Upper Iowa University. Angie is also an accomplished writer who has had numerous articles published in a variety of publications and was the Editor in Chief of the Hygiene Tribune for 3 years. Her original research concerning elders and xylitol has been published in a peer reviewed medical journal and her book, *Dying From Dirty Teeth* is an amazon best seller in the category of Dental Hygiene. Angie was honored with receiving the Sunstar/RDH Magazine Award of Distinction in 2012 for her work with the geriatric population and xylitol. She is also a 7-time attendee of CareerFusion.

COURSE DESCRIPTIONS:

“MY FAVORITE THINGS...DENTAL HYGIENE STYLE”: Angie has been called, “The Oprah of Dental Hygiene” while presenting this course! As Angie teaches how to make decisions on product choices, she mentions items that have made a positive impact on her life as a hygienist. Attendees receive samples of many of the things Angie speaks about. It is not unusual to hear hygienists squeal with delight and cheer during the presentation, much like the Oprah’s audience members used to do during her “Favorite Things” show! Come feel Angie’s passion for improving the lives of hygienists everywhere as she teaches how to make “HyDuctions” and shares the HyDuctions she has made throughout her career. **(SATURDAY MORNING CE SESSION #2)**

“DYING FROM DIRTY TEETH...ORAL HEALTH OF DEPENDENT ADULTS”: Angie is an expert on this topic and this is her signature course. Angie takes attendees on a journey as she shares her experiences with this population and teaches about what she is doing personally to save elders from “Dying From Dirty Teeth”. She addresses oral care issues facing dependent adults, with a focus on nursing home residents and their primary care givers, namely nursing assistants and nurses. This information will get attendees energized about this population and offer opportunities to help this population. Come feel the passion and excitement. **(SATURDAY AFTERNOON CE SESSION #2)**

TESTIMONY ABOUT ANGIE STONE:

“Angie was one of the best presenters I have ever worked with. She was passionate, confident, funny, and knows her subject inside and out...” ~Howard Pitkow, Professional Photographer

It never ceases to amaze me how Angie has this unique ability to entertain, educate and inspire her audiences. I walked away with renewed enthusiasm and excitement!...” ~Pam Hawkins, RDH
